

Project Design Phase-II

Data Flow Diagram & User Stories

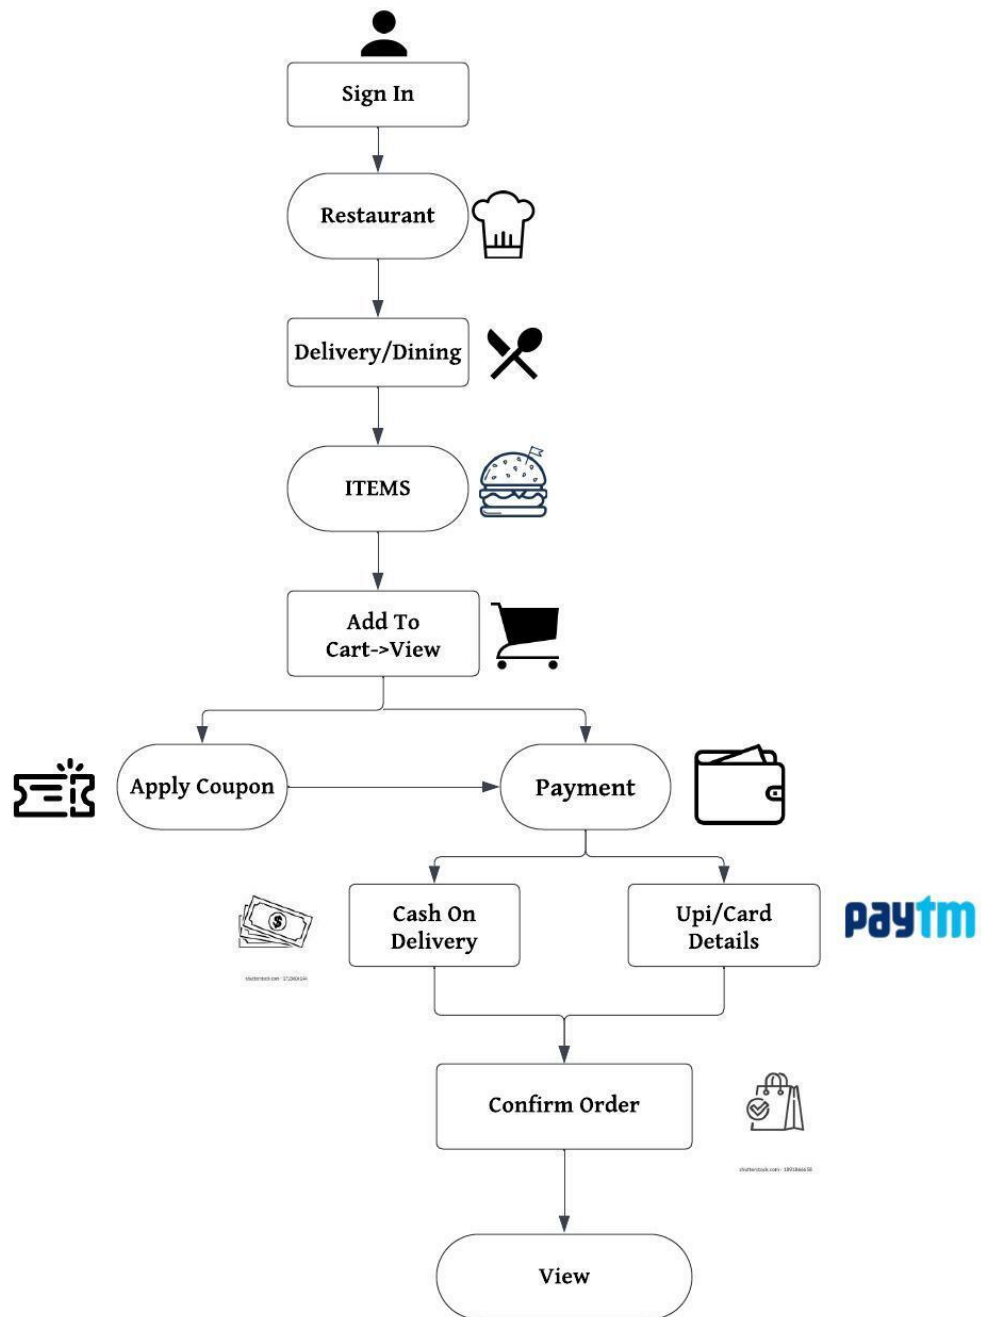

Date	15 October 2023
Team ID	PNT2022TMID590947
Project Name	Project -Express Eats(snack squad)
Maximum Marks	4 Marks

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

DATA FLOW DIAGRAM (LEVEL 0)

- Sign-in/Sign-up: Users start by signing in or creating an account if they're new to the app.
- Restaurant Selection: After signing in, users choose between delivery or dining in options.
- Order Customization: Users browse the selected restaurant's menu, add items to their cart, and make any desired customizations.
- Payment Process: Users proceed to payment, apply any available coupons, and enter their payment information.
- Order Confirmation: After confirming the order, the app processes the payment, and users receive a confirmation.
- Order Tracking: Users can view their order history and track the status of their current order in the "View My Orders" section.

User Stories

Use the below template to list all the user stories for the product.
